SimeI 2022

SIMEI 2022 will be held from 15 to 18 November 2022 at Milan Exhibition Centre - Rho.

Having closed the doors of a very successful edition of SIMEI, which saw over 33,000 visitors coming from all continents, we have begun work on the 29th edition of the fair which will take place in halls 1, 2, 3, and 4 of the Fiera Milano exhibition center.

The world leader in wine technology, SIMEI has been making a name for itself on the international scene in recent years as a specialized event for the entire sector of machinery and equipment for food products and alcoholic beverages, etc.

A cross-over of beverage production areas - linked by the convergence of interest in the same technological sectors - has significantly increased the event's appeal worldwide from diversified targets of operators.

The fair's innovative development path, which has strengthened SIMEI's leadership in quality beverage technologies, has led to the formation of an extremely effective platform for the promotion and dissemination of innovative technologies in this sector which, we are sure, will be of interest to you.
