[Foundry &
Metallurgical
Machinery](#) ^[2]

Overview:

AMAFOND is the Italian association of companies producing machinery, plants, furnaces, and products for the foundry industry. Its 80 member companies provide machinery used in the manufacturing of everything from automobile engines and components to domestic appliances. AMAFOND credits the “Italian approach” to business—characterized by extra customer care and stronger personal relationships—as one of the reasons its member companies attract worldwide customers.
