Overview:

COMACA represents, at a national level, the branch of machines for meat processing and groups qualified and prestigious companies which manufacture plants and equipment for slaughtering and meat processing into a large variety of products.

For its member companies it carries

out, at a national and international level, assistance and preservation services covering different sectors: technical, economic, promotional and so on.

In the technical field, COMACA, cooperates with all bodies and committees concerned with standardization activity.

The need of pursuing main targets such as safety, quality and technological innovation of products makes this service as an indispensable means always of great interest.

As for promotion activity, it contributes to spread or increase the knowledge of made in Italy

products of the sector, both through the circulation of informative documentation, particularly on the occasion of major exhibitions in Italy and abroad.

COMACA cooperates with ICE (Italian Institute for Foreign Trade) in finding out and selecting initiatives to be included in promotion programs of Italian Foreign Trade Ministry and supports ICE in the subsequent executive phase.
